

## SE03 Calculate

Added the following comment

\*Please change the expression below to 18 and 29 months if you are calculating vaccinations tables CH.02 for children 18-29 months.

Under Immunizations.

---

Under "Immunizations"

Change

```
+ recode bcg (1,2 = 1) (else = 0) into bcg_r.  
+ recode dpt3 (1,2 = 1) (else = 0) into dpt3_r.  
+ recode polio3 (1,2 = 1) (else = 0) into polio3_r.  
+ recode measles (1,2 = 1) (else = 0) into measles_r.  
+ recode allvacc (1,2 = 1) (else = 0) into all_r.
```

to

```
+ recode bcg (1,2 = 1) (3 = 0) into bcg_r.  
+ recode dpt3 (1,2 = 1) (3 = 0) into dpt3_r.  
+ recode polio3 (1,2 = 1) (3 = 0) into polio3_r.  
+ recode measles (1,2 = 1) (3 = 0) into measles_r.  
+ recode allvacc (1,2 = 1) (3 = 0) into all_r.
```

---

Please do not forget to copy your modified/final CHRECVAC.SPS file into the same directory as the sampling error calculation syntax.

---

Added information on how to design the excel files to the end of the "Readme.doc" document
