

**WHO/UNICEF
Review of National Immunization Coverage
1980-2008**

Russian Federation

July, 2009

Russian Federation

BCG (1980-2008)

Description of trend

Estimated immunization coverage levels are based on reported data. No survey data are available. WHO/UNICEF recommend conducting a quality survey to verify reported levels of coverage.

2008	98	98	98	98	98		

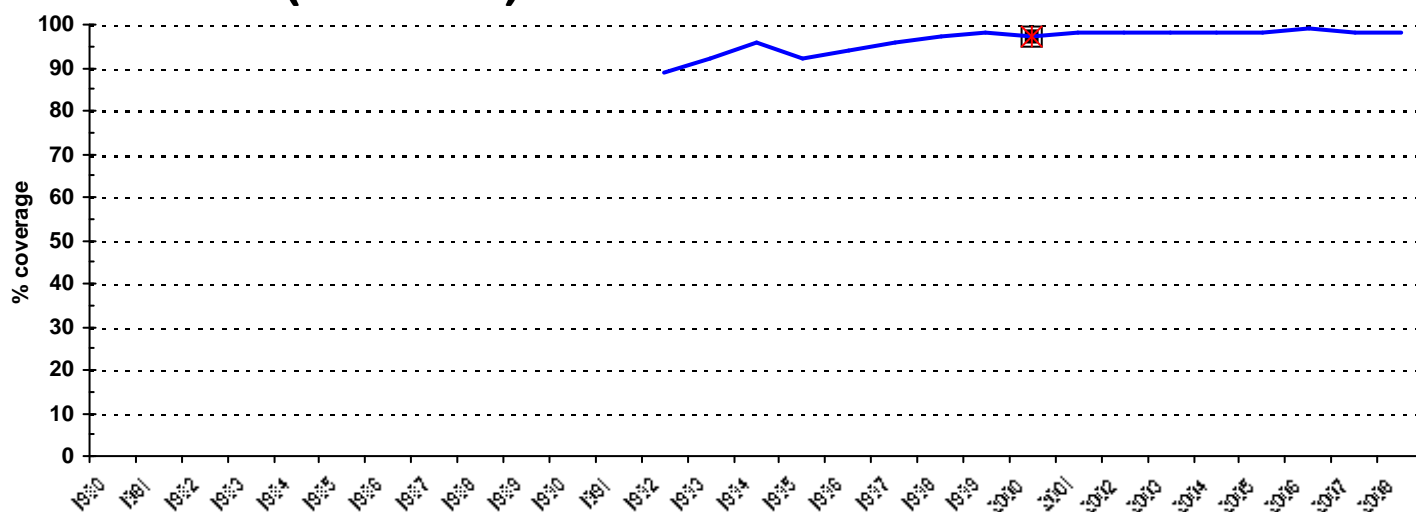

*Prior to 1998 national reports to WHO/UNICEF did not specify whether information was derived from administrative records, surveys or other sources.

**Coverage based on registration of doses administered by health care providers.

***In case more than one survey was implemented in a certain year the highest value is presented. Details of all data are presented in the second section of this report.

Russian Federation

DTP1 (1980-2008)

Description of trend

WHO and UNICEF began requesting data on DTP1 coverage in 2001 and have received national reports reflecting DTP1 coverage for 2000. estimates are derived from the WHO/UNICEF estimates of DTP3 and the relationship between the levels of DTP3 coverage and the drop-out between DTP1 and DTP3. This relationship results from an analysis of 282 surveys conducted in 101 countries which were published between 1980 and 2004. WHO/UNICEF recommend conducting a high quality survey to verify reported levels of coverage.
