

**WHO/UNICEF
Review of National Immunization Coverage
1980-2008**

Slovenia

July, 2009

Slovenia

BCG (1980-2008)

Description of trend

Estimated immunization coverage levels are based on reported data. As of 2005 BCG is recommended only for high risk groups.

Data presented in chart

2008							

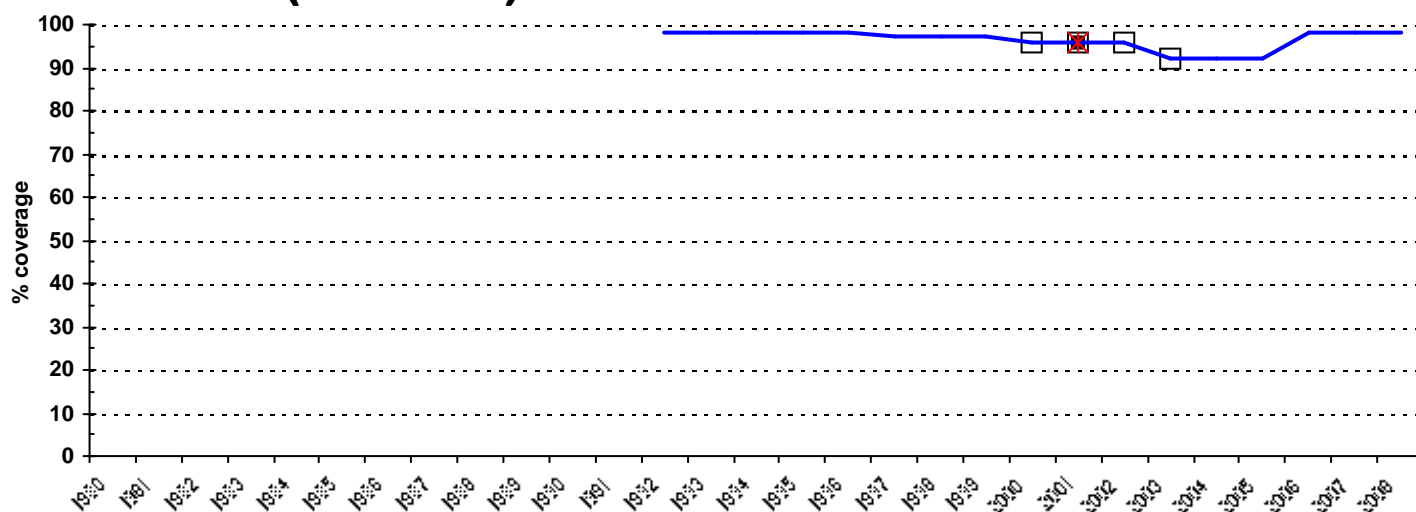

*Prior to 1998 national reports to WHO/UNICEF did not specify whether information was derived from administrative records, surveys or other sources.

**Coverage based on registration of doses administered by health care providers.

***In case more than one survey was implemented in a certain year the highest value is presented. Details of all data are presented in the second section of this report.

Slovenia

DTP1 (1980-2008)

Description of trend

WHO and UNICEF began requesting data on DTP1 coverage in 2001 and have received national reports reflecting DTP1 coverage for 2001 onward. For other years the estimates are derived from the WHO/UNICEF estimates of DTP3 and the relationship between the levels of DTP coverage and the drop-out between DTP1 and DTP3. This relationship results from an analysis of 282 surveys conducted in 101 countries which were published between 1980 and 2004.
